Welcome to the antisocial network

Short synopsis

Frankie thinks she's found a path to internet stardom when she starts making YouTube videos with a charismatic stranger – until the dark side of viral celebrity threatens to ruin them both.

Long synopsis

Just above Hollywood boulevard lives Frankie, a young woman trying to navigate who she wants to be. It isn't until she has a few cosmic run ins with the mysterious Link, a man that seems to live life without rules that it inspires Frankie to film him and upload his anti-mainstream rants onto the internet. Together they rise to internet stardom.

However, it's hard to stay sane when the pressure of relevancy becomes important. To make matters more complicated, Frankie and Link start getting romantically entwined. Frankie watches as Link becomes the epitome of everything he once denounced. Frankie really questions if she is also becoming the monster she helped create. A love story of being in love with someone who doesn't love themselves set against the new emerging culture of today's world.
