JFK Revisited: Through the Looking Glass

Tagline

Short synopsis

Declassified files related to President Kennedy's assassination in a far larger context, aiming to shine more light on what really happened in 1963.

Long synopsis

Thirty years after his film "JFK," filmmaker Oliver Stone takes viewers on a journey through recently declassified evidence in the assassination of President Kennedy-- the most consequential American murder mystery of the twentieth century. Joined by Oscar-winning narrators Whoopi Goldberg and Donald Sutherland, as well as a distinguished team of medical and ballistics experts, historians, and witnesses, Stone presents compelling evidence that in the Kennedy case "conspiracy theory" is now "conspiracy fact."
