Short synopsis

Long synopsis

How far can a successful fart get you? Will it only lead to a good laugh, or could you possibly gain international recognition? The somewhat insane Doctor Proctor has accidentally invented the world's most powerful fart powder. When two kids from his neighborhood drop by for an unexpected visit, it becomes the beginning of an unusual friendship and a riotous business project. Well-behaved Lisa with her pigtails and tiny Nilly with his bright red hair decide to help introduce Doctor Proctor's fart powder to the world. But this turns out to be an adventure fraught with danger, as the wealthy and evil Mr. Thrane and his two creepy sons are willing to do anything to get their hands on the fart powder. The comedy Doctor Proctor's Fart Powder is a modern-day fairy tale set in a world where the most normal adult is a mad professor, where animals you wish didn't exist lurk in the sewer, and where the farts are powerful enough to launch you into outer space.
